International application No. PCT/EP 03/13100	International filing date (day/month/year) 21/11/2003	(Earliest) Priority Date (day/month/year)
Applicant SIMONSSVOSS TECHNOLOGIES AG		

This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This International Search Report consists of a total of 5 sheets.

☒ It is also accompanied by a copy of each prior art document cited in this report.

1. Basis of the report

a. With regard to the **language**, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

☐ the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).

b. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international search was carried out on the basis of the sequence listing :

☐ contained in the international application in written form.

☐ filed together with the international application in computer readable form.

☐ furnished subsequently to this Authority in written form.

☐ furnished subsequently to this Authority in computer readable form.

☐ the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.

☐ the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished

2. ☐ **Certain claims were found unsearchable** (See Box I).

3. ☐ **Unity of invention is lacking** (see Box II).

4. With regard to the **title**,

☒ the text is approved as submitted by the applicant.

☐ the text has been established by this Authority to read as follows:

5. With regard to the **abstract**,

☐ the text is approved as submitted by the applicant.

☒ the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.

6. The figure of the **drawings** to be published with the abstract is Figure No.

☒ as suggested by the applicant.

☐ because the applicant failed to suggest a figure.

☐ because this figure better characterizes the invention.

2
☐ None of the figures.

Box III TEXT OF THE ABSTRACT (Continuation of item 5 of the first sheet)

Safety device for a hand-held weapon (1) comprising a transponder (9) for authenticating at least one authorized weapon user carrying or wearing the Transponder (9) or for authenticating an allowed area for using the weapon (1). The transponder (9) is adapted to emit a wireless preferably cryptified authenticating signal. The Safety device further comprises a safety means (2) for a grip of the weapon (1) which is adapted to be necessarily activated by a hand of the user when the hand is holding the grip (7) of the weapon (1) and which upon activation emits a wireless request signal. The transponder (9) is adapted to emit the authenticating signal upon receipt of the request signal from the safety means (2). The safety means (2) receives and processes the authenticating signal from the transponder (9) and permits firing of the weapon (1) by the user upon receipt of an authenticating signal from the transponder (9) authenticating an authorized user.
